### Professional Experience

Site Reliability Engineer & DevOps Lead, Eiger Trading Advisors Ltd, London (Hybrid) | Jul 2022 – Present

- Led AWS architecture: EC2, Lambda, RDS, EKS, VPC, IAM, CloudWatch/CloudTrail with IaC
- Delivered 25% cost reduction via rightsizing, Savings Plans & RIs
- Defined SLIs/SLOs and led post-mortems
- Built observability stacks: Prometheus, Grafana, ELK
- Automated CI/CD with GitHub Actions, TeamCity, Jenkins
- Optimised EKS clusters: autoscaling, Helm, DR across UK/Frankfurt
- Introduced chaos testing and enforced IAM least-privilege

DevOps Engineer, Beyond Cloud Solutions (Remote / Texas-based) | Jan 2021 – Dec 2022

- Ran Kubernetes clusters, improving uptime and scalability
- Monitored and tuned PostgreSQL with pgAdmin
- Wrote PowerShell scripts for VPN and deployments
- Built AWS/Azure modules with Terraform

Web/System Administrator, Kinetik, UK | Jan 2020 – Dec 2020

- Managed internal MediaWiki: uptime, backups
- Generated SQL/Excel reports
- Enhanced CMS content & SEO

DevOps Engineer, Safe-Complex (Remote / Hybrid) | Jan 2017 – Dec 2019

- Managed AWS, GCP, Azure, IBM Cloud
- Automated deployments with Terraform, Ansible, Python
- Developed tooling in Go & Python
- Maintained EKS/GKE and Docker

IT Support Engineer, New Horizon, Nigeria | Jan 2015 – Dec 2017

- Supported 100+ users with hardware, software, network
- Configured VLANs and managed Active Directory
- Led Google Workspace to Microsoft 365 migration
- Documented runbooks in Confluence

### Education

MSc Internet of Things & Data Analytics – Bournemouth University (2022)

BSc Computer Science – Ekiti State University, Nigeria (2017)

Volunteering & Projects

- Advocate for neuro-inclusive hiring on LinkedIn
- Built Python-Slack SSL expiry alerts
- Created reusable Terraform modules
- Optimised Jira Service Desk
